

Clamping force and draw-in force measurement device for regular control and archiving in accordance with DIN EN 1150

Sizes AS 18, 32, 65, 65-4
IS 28, 50, 70
HSK 40, 50, 63, 100

Advantages

- Clamping force measurement for O.D. and I.D. clamping
- Two units, connected with plug & play: IT module – only needed once
TEST module – for various measurement applications
- Can be used rotating [under RPM] and for stationary applications
- No deformation or loss of workpiece under deformation
- Data transmission via bluetooth® to a tablet
- Lithium rechargeable battery for more than 5 hours of operating time
- Software for visualization and archiving of the measurement data [only available together with the starter-set]

TEST module

O.D. clamping I

O.D. clamping II

I.D. clamping

HSK [Hollow taperd shank]

IT module
