

Save the costs of purchasing new large clamping heads by using smaller ones

Sizes 100, 125, 160

Advantages

- Smaller clamping heads can be used in larger chucks [size 100, 125 and 160]
- Use existing clamping heads [size 65 and 100]
- Fast and easy change-over
- Reduced costs due to use of smaller clamping heads
- Smaller clamping heads can be kept in stock for faster availability
- Covers a larger range of clamping diameters
- Productivity boost and saving of time due to faster changeover between large and small clamping diameters
- Flexible production since single clamping heads can be used on multiple machines

Suitable for
