

## ACCESSORIES

### End-stop system vario part

#### Extremely rigid and precise end-stop system

Sizes 32, 40, 42, 52, 65, 80, 100

#### Advantages

- Standardized workpiece end-stops
- Proven and well-known system with gauge discs
- Through gauge discs the clamping length is flexibly adjust-able and adaptable to the workpiece in 1 mm increments
- Can be used rotating and stationary
- Practical storage box
- End-stop design is virtually unnecessary
- Faster set-up
- Multiple use through modular structure

#### Suitable for

TOPlus mini / SPANNTOP mini

TOPlus / SPANNTOP nova

TOROK SE / TOROK RD

MANOK plus SE / RD
